ABOUT ME

I'm a young, flexible programmer with expertise in HTML, CSS, JavaScript, React, Express, MySQL, MongoDB and Python. My ability to think critically and solve problems is driven by my curiosity, which makes me an invaluable member of any team. I encourage productive teamwork through my strong leadership and communication skills. I am devoted to keeping on the cutting edge of technological trends to promote innovation and am eager to learn and contribute.

EXPERIENCES & PROJECTS

Gab Express - Food Donation Platform (<https://gab-express.vercel.app>)

Tech Stacks: React, Styled-Components, Express, MongoDB, MySQL, Nodejs, Express, Stripe, Sessions

Role: Bootcamp Team Leader

- Led the development of a Food Donation Web Platform.
- Oversaw both front-end and back-end aspects of the project.
- Integrated Stripe API and webhooks for payment processing.
- Implemented session-based authentication and authorization.
- Coordinated seamless integration of databases.
- Successfully executed front-end and back-end logic

Hatsu Project - Anime Streaming Site (<https://hatsu.vercel.app>)

Tech Stacks: React, Styled-Components, Firebase, Firestore, GraphQL

Role: Sole Developer

- Created an ad-free anime streaming website.
- Integrated Firebase authentication/authorization for enhanced security.
- Implemented an intuitive anime bookmarking system for user personalization.
- Provided multiple high-quality streaming sources for an immersive experience.

React Chess - Chess Game Website (<https://sentinail.github.io/React-Chess>)

Tech Stacks: React, Styled-Components

Role: Sole Developer

- Created a two player chess game using React
- Implemented chess logic by myself
- Implemented chess move algorithm
